

Year 3 (2015)

| | From | To | Name | WG | Title | |
|-------|-----------------------------------|---------------------------------|------------------|-----------|---|--------------------|
| 24514 | Germany (Jülich) | France (Orsay) | N. Izarova | 1 | Electrochemical studies on transition metal-containing polyoxometalates | Feb (19 d) |
| 25165 | Spain (ICIQ, Tarragona) | France (Versailles) | D. Melgar | 4 | Tracking the interactions between large POMs and various substrates by 1H DOSY NMR and MD simulations | May-July (62 d) |
| 25208 | Moldova (Inst Appl Phys) | Spain (Valencia) | A. Palii | 3 | Theoretical study of mixed-valence polyoxovanadates for quantum cellular automata | Sep (30 d) |
| 25344 | UK (Glasgow) | Germany (Ulm) | J. Cameron | 1 | Studying the Photocatalytic Properties of Lanthanide-functionalized Vanadates | May (15 d) |
| 25377 | Russia (Boreskov Inst Catal) | UK (Newcastle) | N. Maksimchuk | 1 | Di-titanium-substituted Lindqvist tungstate as catalyst for H ₂ O ₂ -based oxidation | Sept (61 d) |
| 26482 | Italy (Padova) | France (Versailles) | I. Bazzan | 1 | Earth-abundant-incorporating systems based on polyoxometalates and nanoparticles for wather oxidation. | May -Jun (61 d) |
| 26526 | Russia (Nikolaev Inst Inorg Chem) | UK (Newcastle) | S. Adonin | 1 | Synthesis of non-transition metal complexes with non-lacunary POMs | April-June (6 wks) |
| 26554 | Israel (Ben Gurion) | Spain (Valencia) | B. Tsukerblat | 3 | Vibronic localization in nanoscopic mixed-valence polyoxometalates | Oct (30 d) |
| 26602 | Belgium (Leuven) | Bulgaria (Inst Org Chem, Sofia) | T. K. Nga Luong | 4 | Applying Diffusion Ordered NMR Spectroscopy to study the aqueous speciation of POMs | Jun-Jul (31 d) |
| 26616 | Spain (URV, Tarragona) | Germany (RWTH Aachen) | X. Lopez | 2 | DFT and EXAFS/XANES studies of polyoxovanadates | Jun-Jul (17 d) |
| 26791 | Spain (ICIQ, Tarragona) | UK (Glasgow) | J. Soriano-Lopez | 1 | Performance of the POM-Co ₉ as Water Oxidation Catalyst in a Decoupled Catalytic Hydrogen Evolution | May-Jun (40 d) |
| 28891 | Russia (Nikolaev Inst Inorg Chem) | France (Versailles) | P. Abramov | 1 | Using of {Mo ₂ O ₂ S ₂ } ²⁺ as building block for the assembly of hybrid nanosized polyoxometalates | Oct-Nov (42 d) |
| 28895 | UK (Glasgow) | Spain (ICIQ Tarragona) | M. Martin | 1 | Developing of a mixed W/Mo Co ₄ polyoxometalate as a Water Oxidation Catalyst (WOC) | July (10 d) |
| 28925 | Spain (Univ Alicante) | Italy (Padova) | G. Trautwein | 1 | Immobilization of Polyoxometalates in a selectively functionalized Halloysite lumen | July -Sept (61 d) |

| | | | | | | |
|-------|----------------------------------|-------------------------|-------------------|---|--|------------------|
| 29052 | Germany (Bremen) | France (Orsay) | X. Xing | 1 | Electrochemistry and Electrocatalysis Study on Mn-Containing, Fe-Containing and Cr-Containing POM | Sept -Oct (25 d) |
| 29168 | France (Toulouse Univ) | Spain (ICMol, Valencia) | N. Suaud | 3 | Tuning magnetic anisotropy in POMs | Aug-Sept (9 d) |
| 29244 | Serbia (Inst Nucl Sci, Belgrade) | Belgium (KU Leuven) | A. Bondzic | 4 | Investigation of structural and conformational changes in Na ⁺ ,K ⁺ -ATPase and acetylcholinesterase induced by polyoxometalates | Oct (25 d) |
| 29313 | Switzerland (Univ. Zurich) | Spain (ICIQ, Tarragona) | R. Müller | 1 | Electroanalysis and -catalysis of Ni containing polyoxometalates as water splitting catalysts. | Aug-Sept (26 d) |
| 29683 | France (Univ Paris Sud, Orsay) | Portugal (Univ. Porto) | C. Ayingone Mezui | 2 | Synthesis, characterisation and electrochemical properties of POM-based nanocarbons | Sept-Oct (28 d) |
